# IN MEMORIAM

IAN T. TAYLOR
1931 - 2021

It is with both sorrow and gladness that we announce that Ian Taylor is now in the presence of the Lord he loved and served during his 90-year sojourn on earth. Ian died peacefully at Providence Care Hospital in Canada on Friday, December 3, 2021.

Ian was born in Slough, England. He graduated from the University of London with degrees in metallurgical engineering. He immigrated to Canada in 1955 and spent 19 years as research metallurgist with the Aluminum Company of Canada. While there, he obtained two patents – including one for a novel process for the manufacture of armor plate.

After becoming a Christian in 1974, he left his position as metallurgist and joined David Mainse, a popular TV evangelist in Canada, as a cofounder of *100 Huntley Street*. He became a producer of 39 television programs of the "Crossroads" series, including a 13-part TV series exposing the fallacies of the theory of evolution. In 1984, he wrote the book *In the Minds of Men: Darwin and the New World Order*, now considered to be the classic work exposing the fallacies of the theory of evolution. In 2008, the book was updated and expanded to 518 pages.

Publication of this book took Ian on speaking engagements in almost every state of the US and provinces of Canada, then to Russia, Ukraine, Moldova, China, Hong Kong, Bangkok and Singapore. In 1996, at the invitation of Creation Moments, he moved to Minneapolis where he became President of the ministry and the voice of the popular Creation Moments radio program. After two years, he returned to Canada but continued to be the voice of Creation Moments – now heard on over 1,300 radio outlets worldwide.

Ian loved his family, and he loved animals. He had a subtle sense of humor, and he could fix anything – usually better than it was originally built. He was a true perfectionist. But most of all, Ian loved the Lord and devoted his life to living for Him and to bringing others to the Lord. He truly was a "good and faithful servant".
